The Significance of the Term
"BARGAIN FRIDAY"

NE of the definitions of the word "Bargain" given by the universal dictionary reads—"An article purchased at an advantageous rate." That's the sum and substance, the pith and sinew of our Bargain-Friday Sales. Every article is priced at a rate that is advantageous to the purchaser. More than five years ago The Broadway Department Store commenced setting Friday aside as a day for the disposal of remnants, broken assortments and short lengths, and in the intervening space of time we have never missed a bargain sale on Friday. This week's list is particularly strong and most attractive. The rapid selling on spring merchandise has left remnants, short lines, broken assortments and odd lots innumerable, which go on sale Bargain-Friday at prices that in some instances barely cover the cost of manufacture. Not an item is quoted but is specially priced for Bargain-Friday—and the very best things are given no newspaper publicity but are consigned to the aisle tables and will be disposed of early in the day; so you can readily comprehend the advisability of early shopping on Bargain-Friday.

Scarfs and Shams 25c

WORTH UP TO \$1.00.....

NAN FEELING SORE ALL OVER.

Prison Physician Says She's a Nervous Wreck.

Prosecution Not Opposed to Her Release on Bail.

Remarkable Scenes Witnessed About the Tombs.

(BY THE ASSOCIATED PRESS.—A.M.)

NEW YORK, May 4.—Nan Patterson lies very ill in the Tombs today, her nerves completely unstrung by the ordeal of her trial and her dramatic experience in court at 3 o'clock this morning, when the jury reported its verdict. Her lawyers worked hard today to secure her release at once on bail, but up to 2:30 had made little or no progress. At that time, they had not been able to communicate with the District Attorney, and did not know his intention regarding the case. Bail was ready in any sum, they said, and they hoped to secure her freedom in a day or two at the latest. It was said at the District Attorney's office today that the prosecution would not oppose the release of Nan Patterson on bail, provided the sum was fixed at from \$10,000 to \$20,000.

Although in a state bordering on complete collapse when she went to her cell early today, after the jury had been discharged, Miss Patterson soon was quieted, and slept peacefully through the night. When a deputy warden, making his rounds at 8 o'clock this morning, reached the cell occupied by Miss Patterson and her sister, Nan was still sleeping heavily. At the side of the couch knelt her sister, Mrs. Smith, who was also asleep, with one arm thrown on the pillow on which Miss Patterson's head lay. The deputy warden carried with him eleven letters addressed to Miss Patterson. He left them at the cell door, and did not disturb either of the women.

After one of his visits to his daughter's cell, J. Randolph Patterson said: "I did not try to talk to her. She seemed to be asleep, and she needed rest. I had not the heart to talk to her after what she went through last night. She is in the hands of her sister, and I am satisfied with that."

Dr. F. A. McGuire, the prison physician, today gave out a formal statement regarding the prisoner's condition. He said: "She is a nervous wreck. She is unable to retain food. She is physically exhausted, and cannot lift a cup of beef tea to her lips. It will take two or three days for her to recover her normal strength. Her sister, Julia, is consulting her, and her conversation at present is the best medicine."

Dr. McGuire said Miss Patterson said to him today: "I feel as if somebody had hit me all over my body with a club. I feel bruised and sore all over."

NOTHING LIKE IT BEFORE.

In the court annals of this city nothing has yet approached the tenacity of the climax in the Patterson case. When Recorder Smith pronounced to court soon, after 1 o'clock, the room was filled with spectators, two of whom were women. Only those possessing permits were allowed to enter. In the streets surrounding the court, the Courthouse were thousands awaiting the outcome. With their eyes riveted on the court, they waited, they hoped, might pause at a window momentarily, and catch a glimpse of the prisoner. Mounted police forming the traffic squad kept the people in order and maintained passageways for the street cars.

When the Recorder reached his desk and ordered the court to open, the nervous tension in the court became almost unbearable. The jury filed into the courtroom, the Recorder was on the bench, Assistant District Attorney Rand was restlessly pacing back and forth and Attorney Levy, for the defense, was leaning over the railing of the gallery, below and behind the central figure of the tragedy was nowhere to be seen.

For a moment, the Recorder did not notice her non-appearance and was about to call on the foreman for the verdict. Informing that the prisoner was ill, Mr. Goff declared the court could not proceed; that she must be present.

The minutes dragged slowly along. Ten of them passed, and then Miss Patterson appeared, leaning heavily on the arm of a deputy. She showed more strength than even her lawyers had hoped. In crossing the Bridge of Signs, she had heard the shouts of the watchers, below and seemingly every voice was attuned in her favor.

Upon reaching the dock, she grasped the railing for support and gazed fixedly at the jury. When they announced their verdict to agree and were sent back for further consultation, she almost collapsed and practically had to be carried from the room.

RAMBLE SCENES EXTRACTED.

At 12:15 o'clock the same scenes were enacted. Miss Patterson was then in a state bordering on collapse. She trembled like a leaf when the jury filed in the second time, and when the foreman finally made a personal call of the jury, announced that its members were divided, her opinions and the formality of the discharge had been completed as in a dead faint. As the final curtain fell, strong court attendants lifted the chair in which the unconscious woman sat and carried it away to the hospital ward of the prison.

Physicians were hurriedly summoned, but she could not be revived by ordinary methods. The prisoner's aged father clasped her in his arms, chafed her cheeks and called her names repeatedly but she did not utter a word. Finally, after nearly twenty minutes, she became semi-conscious and ten minutes later was able to speak.

Meantime, there was a great clamor among the other prisoners to learn the verdict, adding an unusual touch to one of the most remarkable nights in the history of the Tombs.

OUTSIDE, the crowd melted slowly away and an hour after the jury was discharged the neighborhood had resumed its normal quietness.

DEPENDS ON JURY'S VOTE.

(BY THE ASSOCIATED PRESS.—P.M.)

ALBANY (N. Y.) May 4.—Dist. Atty. Jerome, who has been here since yesterday, said today that the vote of the jury in the case of Nan Patterson would determine to a large degree his decision whether to put her on trial again for the murder of her father, Young. If the jury was preponderantly against her he might try her again; if the majority was in her favor he might consent to her release.

CONDITION NORMAL AGAIN.

(BY THE ASSOCIATED PRESS.—P.M.)

NEW YORK, May 4.—No positive steps were taken today toward having Nan Patterson released on bail, it being agreed by her counsel and her father that, even though bail was possible at once, it would be better for the

girl to remain quietly in the Tombs for rest after the ordeal she underwent last night.

During the day alarming reports were circulated as to Miss Patterson's condition, but it was stated at the Tombs tonight that Miss Patterson's condition is practically normal. She shows the effects of her trial, but is far from a real breakdown. She spent a large part of the day sleeping in her cell, being thoroughly exhausted from her long vigil and the nervous strain of last night.

Miss Patterson's lawyers tomorrow will endeavor to reach an agreement with the District Attorney's office as to the amount of bail their client shall be required to give. They hope the sum will be nominal one, but say they are ready to furnish a bondman for any amount within reason.

There is much speculation as to what course the District Attorney will pursue with reference to the trial of J. Morgan Smith and wife, on the charge of conspiracy, and what effect the testimony adduced at their hearing might have upon a possible fourth trial for Miss Patterson. No definite statement has been made on the subject, however.

SNAKING SMITH BACK TO COAST.

WARRANT FOR EXTRADITION OF DEFAULTING COLLECTOR.

Culprit in Custody at St. Louis, Is Anxiously Awaiting Officers Who Will Return With Him to San Francisco and Rejects Offers of Assistance from Brooks Woman.

(BY THE ASSOCIATED PRESS.—A.M.)

SACRAMENTO, May 4.—Gov. Pardee this afternoon issued a warrant of extradition for E. J. Smith, the defaulting Tax Collector of San Francisco, who is now in custody at St. Louis.

LEONA'S OFFER TURNED DOWN. (BY THE ASSOCIATED PRESS.—A.M.)

ST. LOUIS, May 4.—Edward J. Smith, the Tax Collector of San Francisco, who is under arrest here, on the charge of embezzlement, is anxiously awaiting the arrival of the detective from San Francisco. Smith asserts he wants to return as soon as possible and be punished.

The woman arrested soon after he was taken into custody, and who has been released, begged Smith to permit her to attempt to influence him to assist him, but he refused, counseling her to go to some place where she could not be seen and never again think of him or attempt to communicate with him. Smith kissed her farewell in the jail. She was arrested under the name of Leona Brooks, but later declared that that was an assumed name, and that her real name was Blanche Smythe. She stated that she would immediately depart for San Francisco.

Efforts of detectives are being directed to ascertain just what became of the money Smith acknowledges he took. Smith said it was spent in having a new suit made, but the detectives are trying to find out just how it was spent.

GRAND JURY INVESTIGATION.

(BY THE ASSOCIATED PRESS.—A.M.)

SAN FRANCISCO, May 4.—The committee of the grand jury, which, after the defalcation and flight of Tax Collector Smith, was investigating the condition of Treasurer McDougall's office, met today and examined a number of witnesses. The result of its work has not been revealed and the members of the committee will endeavor to ascertain just what became of the money Smith acknowledges he took. Smith said it was spent in having a new suit made, but the detectives are trying to find out just how it was spent.

GIRL QUAKES AT GUN POINT.

Police Patrolling Excited Pico Heights.

Two Ruffians, One Mounted, Play Queer Tricks.

Mark Crosses on Barn, Fly When Police Appear.

(BY THE ASSOCIATED PRESS.—A.M.)

Two ruffians are terrorizing the residents of Pico Heights and baffling the police, who are on a still hunt for them.

Early yesterday morning, while Hazel Erway, a thirteen-year-old girl, employed at the home of J. B. Hollis, of No. 1411 Vermont avenue, was standing behind the trellis of the back porch, a rough, suspicious man entered the yard, and going to the barn took out a bottle and with a white fluid made mysterious markings on the lintel of an outhouse door. The fellow then apparently quit the premises.

The girl was very much frightened. At once she told her mistress, and the marks on the barn were examined. It was found that the man had made a cross with a fluid resembling white wash. The family immediately telephoned for the police. Thirty minutes later the girl went into the yard to hang some clothes on a line.

While engaged in this work, she was almost paralyzed with terror, for as she turned from the door she looked full into the face of the fellow who had made the earlier visit.

The terror of the girl, the wretch pulled out a large pistol, and holding it close to her face, commanded her to sit down on a small bench in the yard. Keeping his eyes on her, he backed away to the barn, where he had previously made the mysterious mark, and placed another sign above the white cross.

Returning to the girl, he asked her if she had told anyone in the house of his previous visit. On her answering in the negative, he leeringly said: "Well, it's good for you you didn't, for you'd have been a dead one if you'd told on me."

PAL ON HORSEBACK.

While the scoundrel was talking to the girl, who was almost dumb with terror, another fellow rode up on a horse, and coming to the back gate through the yard, he entered the yard. The two white-pierced together for a few minutes, the first man, who had a pistol leveled at the trembling girl. At this juncture voices were heard at the front of the house, and the ruffians were frightened away without accomplishing their unpeppable purpose.

The fellow who had first appeared was dressed in a light gray suit and wore red aviator; he was about 25 years of age. The second one, who was slightly older, was dressed in a dirty blue suit, wore a black slouch hat and had thick mustache; he was a Mexican.

As the two were leaving, the girl found the first man had left a note pinned to the door. It read: "You at 9:30 at Twenty-fourth and Magnolia."

Responding quickly to the telephone call, the police rushed to the house, while they were listening to the story of the frightened woman gathered on the front porch, the scene in the back yard was being enacted.

When the police walked through the house they found the girl sitting on the bench in the yard, weeping bitterly. She told them about the first man's second visit, and of the appearance of his accomplice, and said: "They places just gone away through the alley."

A hurried immediate search of the neighborhood failed to discover the ruffians, though police showed how they had made off.

SHROUDED IN MYSTERY.

When questioned by the police, the girl stuck closely to her story; she said also, that she had heard the man on horseback tell the man who held the pistol that he had "got his horse over the fence."

The affair is shrouded in mystery, and is causing the residents of Pico Heights to wonder which house will be selected for the next operations of the strange pair.

On Monday evening a screen was erected from a window at the side of the house occupied by J. B. Hollis, and family. No. 1411 Vermont avenue, and strange markings were made on the window-pane.

The police say the description of the two men tallies somewhat with that of two hold-up men who were wanted, and a guard is being kept over the house on Vermont avenue, but up to a late hour last night no arrests had been made.

The night watch was given special instructions at police headquarters last night, and two officers were specially detailed, one to remain about the Hollisclaw home, the other to patrol the neighborhood of the fellows' presumed meeting place—Twenty-fourth and Magnolia.

PARDEE REFUSES EXTRADITION. ALLEGED LOYER WON'T PUT UP.

(BY THE ASSOCIATED PRESS.—P.M.)

SACRAMENTO, May 4.—A press dispatch from San Jose states that O. W. Hillery, an alleged absconder of that city, now in the East, will not be extradited because the Governor has refused a requisition.

A. B. Nye, executive secretary to the Governor, stated tonight that no application had been made to Gov. Pardee for a requisition warrant and that he has no official knowledge of the Hillery case.

The dispatch states that the Governor's refusal was tentative, as he stipulated that if the Metropolitan Improvement Company, which claims to be the loser, will pay the money he will issue the papers as requested.

The Governor has so far refused but one requisition and that was because the money in the fund for returning fugitives from justice is very low and it will not be replenished until July, when the new appropriation becomes available.

OFF WITH THE GOLD DUST.

(BY THE ASSOCIATED PRESS.—P.M.)

FAIRBANKS' FIRST HOLD-UP. (BY THE ASSOCIATED PRESS.—P.M.)

SEATTLE, May 4.—A special to the Post-Intelligencer from Fairbanks, Alaska, says: "A lone man, roughly dressed and with his features concealed by a cloth mask, entered the cabin of J. B. Knox, and, at the point of a revolver, demanded a quantity of gold dust, which he will not be replenished until July, when the new appropriation becomes available."

SIDE TALKS BY THE OFFICE BOY

It's a wise father who knows as much as his own son. Since Pa had it handed to him on the books he says he'll never stray away from a silverwood store again. He says trading at silverwood's and getting such high grade goods at such small prices is like getting money from Carnegie. He told me he was afraid that I didn't know about the Hat and Furnishing Goods business wasn't necessary. I'm getting it by the way. Glasses, all right, all right. I rubber in every window in town. He told me he was afraid that I didn't know about the Hat and Furnishing Goods business wasn't necessary. I'm getting it by the way. Glasses, all right, all right. I rubber in every window in town. He told me he was afraid that I didn't know about the Hat and Furnishing Goods business wasn't necessary. I'm getting it by the way. Glasses, all right, all right. I rubber in every window in town.

gold, the result of the winter's work of Knox and Hamilton on their claim on Clear Creek. This box was covered with clothing, which the robber dragged off all the time keeping the inmates covered with his revolver. He demanded a key to open the box, but this being refused him, he shouldered the box and heaved out into the night.

"Knox and Hamilton in the night, gave the alarm and in a few moments a posse of miners was on the trail. About a mile from the cabin they found the box badly dented, evidently from blows of the bandits' revolver, but with its contents untouched.

"This is the first hold-up ever attempted in the vicinity of Fairbanks and had a man been caught it would have been hard with him."

CRIMINAL BRIEFS.

JERSEY MURDERER MUST HANG. (BY THE ASSOCIATED PRESS.—A.M.)

TRENTON (N. J.) May 4.—The State Board of Pardons late this afternoon refused to commute the death sentence of Anna Valentine, who was sentenced to be hanged at Hackensack May 12.

NINETEEN SMUGGLED CHIEFS. (BY THE ASSOCIATED PRESS.—A.M.)

SAN JOSE, May 4.—Federal officers this morning conveyed to San Francisco the nineteen Chinamen who were recently arrested here in a box car and who, it is alleged, were smuggled into the country by way of Mexico and Texas.

CAN'T FIND BANK ROBBERS. (BY THE ASSOCIATED PRESS.—A.M.)

WOODBURN (Or.) May 4.—Although a large posse is searching for the robbers who yesterday afternoon robbed the bank at this place, no trace has been discovered. It is feared that the robbers have made good their escape.

McMAHILL STILL IN JAIL. (BY THE ASSOCIATED PRESS.—A.M.)

SAN JOSE, May 4.—As the Chamber of Commerce expects that it has yet completed his examination of the books, the examination of I. B. McMahon, former secretary of that body, went over today until Saturday. The court this morning refused to reduce his bail, and he is still in jail.

WILL NOT BE EXTRADITED. (BY THE ASSOCIATED PRESS.—A.M.)

SAN JOSE, May 4.—O. W. Hillery, alleged absconder, now in the East, will not be extradited, the Governor refusing to issue papers unless the Metropolitan Improvement Company, which alleges that he absconded with several hundred dollars belonging to the company, will agree to pay the expenses incident to his return, and today the company formally refused to do so.

DOUBLE MURDER AND SUICIDE. (BY THE ASSOCIATED PRESS.—A.M.)

CLAYTON (N. M.) May 4.—Felipe Alora, a wealthy ranchman, Monday shot and killed Mr. and Mrs. Francisco Montolio at Bingham, thirty-five miles south of Clayton, and then blew out his own brains.

Alora was one of the oldest Spanish families in the country, and Mrs. Montolio was noted for her beauty. Alora is said to have been deeply infatuated with the woman, and jealousy is supposed to have prompted the murder.

POTTER CONSENTS TO GO. (BY THE ASSOCIATED PRESS.—A.M.)

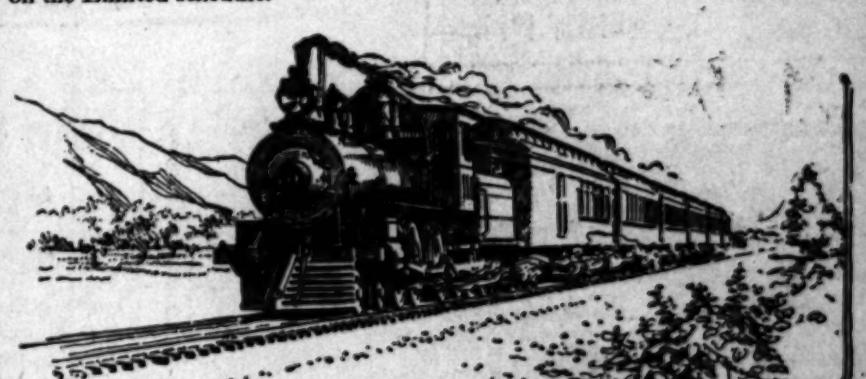

Maro Suell Potter, who was arrested on Monday while working in a bank in this city, under an assumed name, has said to have been deeply infatuated with the woman, and jealousy is supposed to have prompted the murder.

Bullfrog--Compound--Goldfield Stock is a Snap at 4c—Buy Now!

It is easily conceivable that an irresponsible concern might urge you to buy shares of some stock in claims where none of their money was tied up, but no sane company will place their own money in a proposition unless they are convinced, a good deal more thoroughly than you'll demand to be, that there is more money to be gotten out of the investment.

Our money is in Bullfrog-Compound-Goldfield stock, and we believe in it implicitly. Look any day for an announcement that has risen to a much higher price because of a rich strike.

It's next to impossible that claims so situated as those of the Bullfrog-Compound-Goldfield Company's should not be fabulously rich. Four claims (80 acres) are in the heart of Bullfrog, and two claims (40 acres) are in Goldfield, adjacent to big producing properties. That's why we urge you to put YOUR money into Bullfrog-Compound-Goldfield shares while the price is 4c—which won't be long.

While we court fullest investigation of our company and of our claims, we know that your delay to take advantage of this offer is likely to lose you the opportunity of getting in at the present price.

Shares are full paid and non-assessable; the company absolutely free from debt, and development work is actually under way, directed by our expert mining engineer, Mr. W. B. Roberts. If you want to share the profits, fill out this coupon and get it to us in the quickest possible manner—with your remittance.

FRIDAY, MAY 5, 1905.

EVENTS IN LOCAL SOCIETY.

MR. M. A. WILCOX of Adams and Hoover streets entertained yesterday with a pretty luncheon in compliment to Mrs. Marshall Hines of Dunsmuir, N. Y., who has been spending the winter at the Hotel Van Nuys. The table was decked with a beautiful arrangement of American flowers and ferns, and covers were laid for twelve.

The guests with their dainty fancy dances. Cards were played in the reception room, which were in charge of Mrs. Rutherford and Mrs. Mary Hart. Prizes for the games included a decorated cup and saucer, a wall plaque and several handsome books. Throughout the reception rooms and hall American and Confederate flags

First Church Wedding.
The First Congregational Church was the scene of a pretty wedding last evening at 8:30 o'clock. Miss Laura Malle, daughter of Rev. and Mrs. John L. Malle of No. 1254 Inglewood street, became the bride of Robert Harold Hines. The service was performed by Rev. William Horace Day. The church presented a most attractive appearance decorated by the members of the Ragazza Club, an organization of girls of which the bride is a member. The organ loft was filled with soft roses and Easter lilies, and on either side the screens were covered with beautiful ivy and white roses. The altar

MISS MOLLY SAMUELSON.

were effectively draped. Later a supper was served from tables blooming with May flowers.

Engagement Announced.
The engagement of Miss Mollie Samuelson, daughter of Mrs. F. Samuelson of Chicago, and Jacob Isenstein, will be announced on Sunday at an informal gathering of the friends of Mr. Isenstein. This announcement is the culmination of a little romance begun several years ago when Miss Samuelson, with her mother and father, made her home here. After the death of her father Miss Samuelson with her mother left for Chicago and ever since the young people have been corresponding. The wedding will take place in Los Angeles some time in July. Mr. Isenstein is a young business man of this city.

Wed at Arcadia Beach.
A wedding simple in its appointments but dignified on Tuesday evening at No. 92 Arcadia Beach, Santa Monica. The contracting parties were Thomas Martin Marrow of Pico Heights and Miss Mollie W. Cobb of Waterloo, Iowa. The service took place at 8 o'clock and was performed by Rev. J. S. Thompson. The bride was dainty in a soft frock of white mousseline de soie over white tulle with garnitures of duchesse lace. Mr. Marrow is well known in Los Angeles, being prominent in Masonic circles and also being a Knight Templar. His many years with the postal-service department of Los Angeles have made for him many friends. The bride is a stranger in the city, having made her home here for about two years. The couple will remain a few weeks at Santa Monica, and on their return to Los Angeles will occupy their new home on New Hampshire street.

Return Home.
Mrs. Charles Carahan and little daughter, Emily, who have been visiting family, finally have been visiting Mrs. Carahan's parents, Mr. and Mrs. Eben Smith of West Seventh street, have left for their home in Leadville, Colo. Here they are known the hospitality dispensed within their doors. Mr. and Mrs. Carahan and family and their son, Frank Smith, and family will join them there and spend the summer with Mr. and Mrs. Smith.

Wed Quietly.
Miss Hermione M. de Haven and John Gavigan were married on Wednesday evening at the home of the bride's sister, Mrs. John Pennington of No. 521 East Twelfth street with Rev. T. A. Newell officiating. The room in which the service took place was decorated with white lilies, roses and carnations and the bride was attired in brown silk trimmed with pink, and she carried a shower bouquet of white roses.

All Saint's Hall.
At the concert to be given on Thursday evening, May 11, in All Saint's Hall, Highland Park, for the benefit of the choir fund, the leading parts on the programme will be taken by Mrs. Harry Foster of Edgehill Training College, England, who will sing several numbers, and Carl Adolph Freyer, professor of music of the State University of Kansas, pianist.

Six Months' Pleasuring.
Mr. and Mrs. W. H. Holiday of Hotel Angelus left recently for a pleasure trip through the East. They have gone directly to St. Louis, and after a short time there, Mr. Holiday will return to his business in this city, leaving Mrs. Holiday to continue on her trip of six months. She expects to visit her old home in Massachusetts, and friends throughout the East, returning in the early fall.

Mrs. Murphy Convalescing.
Mrs. Daniel W. Murphy of No. 265 Orchard avenue, who has been dangerously ill, is now on the road to recovery. Her mother, Mrs. D. Pinnot, and sister, Miss Finnet of Denver, Colorado, came several weeks ago on account of Mrs. Murphy's critical condition, and are still with Mrs. Murphy.

Informal Lunch.
Mrs. Milo M. Potter of the Hotel Van Nuys entertained a few friends informally at luncheon yesterday, after which the performance at the Belasco Theater was enjoyed.

Notes and Personals.
Mrs. W. S. Hoy of West Adams street left a few days ago for the East.
Dr. Walter Jarvis Barlow is in New York City on a month's business trip.
Mrs. Cameron Erskine Thom will have "at home" days in the fall at the Hotel Angelus upon her return from Santa Monica.
Mr. and Mrs. A. W. Skinner, formerly of No. 1518 Shatto street have sold their handsome residence and will reside permanently at the Hotel Langham.

WORKING OLD SWINDLE HERE.

WARNING AGAINST SHARPS COMES FROM DENVER.

Gold Extraction Scheme by Which Many Persons Were Fleeced There About to be Attempted Upon Los Angeles Victims—Authorities May be Asked to Stop It.

From Denver comes a warning which may prevent what is alleged to be an attempt to work a swindle in Los Angeles similar to one by which many persons in the Colorado capital were fleeced out of the amounts which they invested. According to a dispatch to The Times from that city last night, J. Mosier, a Chicago business man, there on a visit, has received a letter which recalls the "gold extraction" excitement in Denver three years ago, which was worked up by Prof. Wynne and Sidney Williams, and through which several of the most prominent citizens of Denver and Chicago were swindled. The letter is from a Los Angeles friend and states that under another name Williams is in Los Angeles introducing the same "gold extraction" scheme. The method of procedure is reported to be exactly similar to that exploited by Wynne and promoted by Williams.

The "Wynne Gold Extraction Company" guaranteed to extract gold from ordinary earth. In making "demonstrations" it was only necessary to secretly "salt" the earth or other substance with some sort of liquid gold, and then, by chemical treatment, to solidify it into the form of genuine gold "buttons." Wynne died in Denver and Williams claimed to be the only possessor of his secret. He formed a company and sold stock. When it became apparent that the public was getting suspicious, Williams left the city. It was said that he carried away with him \$25,000 that is being paid for the Wynne stock. Mr. Mosier says he will communicate with the Los Angeles authorities and ask for the arrest of Williams.

NEW MINING EXCHANGE.
The first call at the Los Angeles Western Mining Stock Exchange will be held at noon Saturday, and representatives of the city government and various commercial bodies have been invited to attend. A meeting of the members is to be held tonight at 7:30 o'clock. The membership has been raised to \$100 at noon yesterday. There are fifty names on the charter list of members. Of these twenty are members of the San Francisco and Salt Lake exchanges.

STRUCK RICH ORE.
W. L. Valentine and D. H. Imier of the White Eagle Mining Company of this city have returned from the company's mine on the Colorado River, fifty miles below the Needles. While they were at the property a sixty-foot ledge of gold and copper ore was struck, assaying \$68, which, if it continues to sustain these values, will prove a valuable property.

Violet Wicker Work.
The year's preference for things in the shades of purple and violet is being extended even to the furniture, and the delicate shades of violet in wicker work will be welcomed by those people who have long admired their walls with papers in violet designs.
I am not sure that one would not get tired of it, and it is a very trying color with which to surround one's self, but here is everything in knowing that you can satisfy your desire if you want to, and the purple room may come a thing by fashion as eminently desirable.—(Boston Herald.)

Benny Hazeltine Vein
Runs Through the Mountain into Bullfrog Winner Claim.
Goldfield, Nevada, April 29.
Dear Sir:—Development work on all of the Bullfrog properties continues with greater activity than ever. A rich strike was made this week on the Bullfrog Gold Bar, better known as the "Benny Hazeltine," that ran \$1458.
This rich body of ore was encountered in the drift which runs off from the main vertical shaft at the 50-foot level. The whole vein has been opened up by surface work, and the lowest assay that has been made runs better than \$15. The Hazeltine has every promise of being a great milling proposition. The main shaft is being sunk 400 feet above the level of the desert, two-thirds of the way to the top of the mountain. Work has been carried on there only six weeks. A thousand feet north of the shaft, values of from \$50 to \$75 have been obtained on the surface. (By January Jones.)

The above photograph shows the exact position of Bullfrog Winner with relation to the Benny Hazeltine mine, and the intervening fraction on which January Jones made his latest discovery.

PHOENIX ALL REPUBLICAN. A CONDITION THAT HAS NEVER BEFORE PREVAILED.

Gov. Kibbey Urges Against the Passage of Any Bill Giving Statehood in Combination With New Mexico—W.C.T.U. Active in Distribution of Copies of Cigarette Law.

(SPECIAL CORRESPONDENCE OF THE TIMES) PHOENIX (Ariz.) May 3.—Yesterday's election in Phoenix was the most political struggle the municipality ever has known. On the face of things it was a contest between a Republican ticket, and one composed of joint nominees of Democratic and "Citizens" party conventions. The Republicans won by the largest majority ever known in the city. When they take their seats every officer of the city of Phoenix will be a Republican, a condition that has never before prevailed. Of the 1907 votes registered, 14,000 were cast. J. C. Adams got 620 votes, leading T. T. Powers by 262. The best vote was given Frank Thomas, Republican candidate for Recorder, for whom 1023 ballots were cast, a plurality of 497. Powers carried his own ward, the 14th ward, by 25 votes. With this exception, no member of the fusion ticket received a plurality in any ward. The victory was a general and complete one.

Yet the fight had been waged by the Democrats as one of morals only. In Tucson the Democrats had gotten into power by forcing a fight on gambling. The game seemed a good one in Phoenix, but it was a half-dozen years ago that the city fathers, preachers, most of them Republicans, were enlisted in the fight, and church congregations and social clubs were used to house, urging housewives to leave their homes and go to the polls. The election itself was attended with few sharp features. Though the sharpest of lookouts were maintained against the possibility of illegal voting, few arrests were made. There was no disorder till evening, when the joyous Republicans issued forth with enthusiasm, fired fire and the music that could be heard in the streets. By the Democrats the victory is claimed to show that the gamblers, by the use of money and by their cunning strength have downed the moral element of the city. To this view of the situation there is much dissent among the Republicans. They claim the victory as the due of their candidates, aided by the fear of citizens generally of a change in the city government. Methods resorted to by the Democratic city government of a couple of years ago, they say, have been the cause of the present situation. The question of gambling will be put up to a vote of the people very soon. When the vote is taken, the position, it is generally believed that the voters will declare against further licensing of the games. Already a petition is in circulation asking the city fathers to call a declaration of gambling unlawful. The saloon-keepers, among themselves, are considering a proposition to voluntarily close Sunday.

WOULD NOT COMBINE. Gov. J. H. Kibbey has issued, in his capacity of chairman of the Territorial Republican Committee, a circular letter to the effect that he would not combine with a committee meeting to be held in Phoenix in the near future, to protest against the passage of any bill giving statehood in combination with New Mexico. In his letter the Governor refers to the bill introduced at the suggestion of the late Senator Call, calling a special election for the purpose of showing the sentiment of Arizona on the issue of statehood. The bill passed the House under the leadership of the rules, but was held up and pocketed in the Council. The Governor did not state that this was the reason for his refusal to combine, but the proposed protest was unnecessary.

THE TERRITORIAL STRIFE. It is a crime within Arizona to give, sell or furnish cigars, cigarettes, tobacco to any minor under the age of 18. The law was passed in the last Legislature, largely through the efforts of the Woman's Christian Temperance Union of Arizona, and the officers of the union are seeing that the law is being given the widest distribution. About 200 men are now employed on the line of the Arizona and California Railroad, that is being constructed westward from Wickenburg through the desert to the Colorado River. The track has been laid for thirty miles from Wickenburg and the line is complete about 100 miles farther. A large number of Arizona Indians are employed as laborers on the grading.

According to the Weather Bureau report, 2.5 inches of rain fell in Phoenix in April. The highest temperature was 95 degrees. Yesterday night showers fell in Southern Arizona, while in Northern and Central Arizona a heavy shower was experienced. N. K. Dempsey, an experienced trainer, was run over and killed, near Globe, by an extra freight train. He had been sent back to flag. Capt. J. L. Alexander, who commanded Troop C of the First United States Volunteer Cavalry, is a candidate for the office of United States Attorney for Arizona. He is a native of Phoenix and has been in the territory for many years. He is now in the office of the District Attorney at Tempe. The course of studies at the Normal School of Arizona at Tempe has been changed. The course of studies at the Normal School of Arizona at Tempe has been changed.

Maximiano Lucero, murderer of Pedro Salazar at a sheep camp near Phoenix, was sentenced today by Judge Kent to a term of twenty years in the penitentiary. W. C. Greene, Epes Randolph and B. A. Packard were guided yesterday in a day's inspection of Phoenix and the Salt River Valley, having been shown by members of the eastern Congressmen and capitalists. The party has spent the past week in Canaan, around the Green Mountains, and now is on its way to Salt Lake City to divert again into Mexico on a hunting trip.

W. F. Mealey, an employee in the office of the Surveyor-General of Arizona, has been appointed chief clerk in the office of the Surveyor-General of Alaska. George Blount of the Phoenix High School has been re-elected to the place. He has been connected with the school since its organization.

HOW TO CURE LUNG TROUBLE. All this blooded, anemic persons are very liable to suffer from an inflammation of the lungs, or lung trouble, as it is commonly called. This disease is due largely to a depleted condition of the system, loss of strength and tissue, the lung becomes weak, the chest contracts instead of expanding, and the capillaries run down there is often a complete deterioration of the functions of the body. Hence the slightest cold takes firm root, the lungs become inflamed, pneumonia develops, and the person's life is in danger. Dr. Hamell has had wonderful success in the cure of these diseases. There is no reason why he should not repeat his success in your case. The time to be treated is now, when the disease is in its earlier stage, for it is then more easily conquered, thus you will prevent consumption, and the expense and danger attendant upon this disease.

There is but one way for a person in this condition to avoid serious consequences: that is to have the body fortified and strengthened. There is no way talking about cod liver oil, and wearing "protectors" next to the skin, etc., for these are makeshifts that cannot be relied upon. The value of a specialist cannot be overestimated. Not only give you a treatment for the cure of your disease, but will give you medical advice on the care of your body that will be of untold value to you. Consultation and examination free.

ZARO MEDICAL INSTITUTE. 128 West Sixth Street. S. F. HAMMILL, M. D., Medical Director.

Did you ever notice how your sun buttons his coat when in a hurry? If he like most boys he doesn't unbutton it—he just starts at the bottom button and pulls till it either unbuttons or the buttons fly off; and on most boys' suits the buttons fly off quick.

The buttons loose on a "Kantawool-Hercules" Boy's Suit are silk sewed and the buttons are put on to stay; sewed on with best linen thread. Properly washed and worn round and round the neck to remove the strain from the cloth; and we are not stinging with the thread.

Then too the buttons are good buttons—the rough edges are smoothed down by hand on cheap buttons the rough edges are left and they cut the throat.

"Hercules" Boys' Suits are all wool, guaranteed and proved proof and thoroughly hygienic. Every garment labeled "Hercules." "Hercules" two-piece, knee-length suits for boys from 6 to 16 at one price everywhere—Five Dollars.

"Hercules" Book and your dealer's name if you ask.

Daube, Cohn & Co., Chicago

Marlborough... Preparatory School. 805 West 23rd Street. Mrs. GEORGE A. CARWELL, PRIN. 10th year. Advanced work in English and Art History and preparation for college. Certificate admits to college. Gymnasium and Circles on application.

THE CITY IN BRIEF.

NEWS AND BUSINESS.

For Memorial Day.

The California Society, Army of the Philippines will meet tonight at No. 3845 South Spring to consider plans for Memorial Day.

Clcott Recital.

Miss Ethel Clcott's guitar recital will take place this evening at Dobson's Auditorium. She will be assisted in her programme by a number of the Dobson students.

Symphony Concert.

This afternoon the last Symphony concert of the season will be given at the Mason Opera-house. Beethoven's Fifth Symphony will be played. The soloist will be Johan Haase-Zinck, who will sing a group of Danish songs.

Exhibit Damaged.

Telegram from Secretary Wiggins of the Chamber of Commerce, announcing the arrival at Portland, conveys the information that San Francisco's exposition display was damaged seriously by fire and water in a warehouse at San Francisco.

Bad Day for Lums.

Lum Hong, Lum Yau and Lum Wai, charged with being unlawfully within the United States, were arraigned yesterday before United States Commissioner Owen and were held for examination today. Twenty-four Chinamen from this section were deported during April.

Cornell Gathering.

Members of the Cornell University Club were out in force at the club's monthly dinner at Levy's last night. During the evening interesting talks on Cornell were given by John H. Morrow and Dr. F. H. Percival and plans for the summer outings of the club were discussed.

Harvard Boys Win Debate.

In a debating contest yesterday afternoon, between Harvard School and the preparatory department of the University of Southern California, the Harvard boys won. The school was represented by Cecil Henry and Melvin George, and the university by Messrs. Hamdell and Clay.

One Shot Stops Him.

Robert Blakeley, colored, was found trying to sell a new bicycle on East First street last evening. When Detective Talamantes began investigating Blakeley ran. Talamantes fired one shot over the fleeing negro's head to frighten him, and Blakeley dropped on his knees and began yelling. He was picked up on a charge of grand larceny.

Shot in Head and Arm.

A. Gonzales, laborer, was sent to the Receiving Hospital yesterday morning suffering from bullet wounds in the head and shoulder. He had been shot in the head and arm when he was in an altercation with a Mexican who had locked him out of his own shack near Tropic. Gonzales tried to break into the place, and the other man fired two shots at him at close range. Gonzales was not seriously wounded.

Shocks.

Two victims of sneak thieves reported their losses to the police yesterday. J. B. Thompson of No. 2113 Vermont avenue went away from home with his family, and when he returned the house had been ransacked, a lady's gold watch, ring and 14 having been taken. A revolver and a small amount of money were stolen from Mrs. E. L. Hathaway, No. 156 East Twenty-third street.

Nights Templars' Election.

Commandery, No. 9, Knights Templars, held its annual election of officers last night, the results being as follows: Commander, Eminent Sir Frank M. Turner; Generalissimo, Sir John F. Hughes; Captain-General, Sir Robert Wankowski; Senior Warden, Sir W. F. Jeffrey; Junior Warden, Sir William M. Cawwell; Preceptor, Sir Arthur Brookman; Treasurer, Sir Walter C. Durgin; Recorder, Sir W. E. Scarborough.

Car Strikes Child.

While returning from school yesterday noon Cecil, the nine-year-old daughter of Mr. R. W. Hite, a Sixth-street grocer, was struck by a Glendale trolley car at Fifth and Figueroa streets. She sustained a broken leg and serious internal injuries. She was removed to the home of her parents near by. The motorist said the child ran suddenly in front of him and he had not sufficient time to stop.

Local Girl's Success.

"The Silver Slipper" company playing "The Silver Slipper" at the Regency opportunity for the work of a new leading actress—who is Miss Eva Bennett of Los Angeles, a young girl who made her first stage here, but a few years ago. Beatrice Golden, playing "Wrenne"—the principal part—fell ill in Philadelphia, Pa., and Miss Bennett was immediately put in her place. Miss Bennett is but 19 years of age, and for her work in the role has received enthusiastic notices.

BREVITIES.

The volume of "Liners" in the Sunday Times has become so great that it is found necessary to ask patrons to send their Sunday advertisements in by 10 o'clock Saturday night. The printing of all real estate matter, including advertisements, will be delayed on Sundays. Dealers will be required to get the paper out on time, to stop receiving real estate ads at 10 o'clock Saturday night. Dealers will be given a favor on the Times office if they will turn in their ads on Friday, when possible, or at least a part of it, and the balance early on Saturday. Sunday "want" ads will still be received by phone and over the counter until 11 o'clock Saturday night.

The ladies rest room on the top floor of the new wing of the Times Building is open daily from 9 to 5. Ladies from town or country will find this a convenient place to write, rest or read. Stationery provided for correspondence. Bath phones available. Take elevator to business office. All are welcome.

All mothers bringing children, whose ages range from 8 months to 8 years, will be given a photo free on Monday, May 8. If weather is cloudy Monday then bring them Tuesday. I do this to advertise the finest skylight in the city.

Dr. Ernest F. Pillsbury has removed his offices to suite 324-5 W. Hillman Bldg., "The Hillman Bldg." Real estate phone Sunset Hollywood 212. Home Hollywood 95.

For absolute protection at lowest possible cost, see Penn Mutual Life. Large annual cash dividends. I. Clark Guy, Manager, 213 Broadway Building, Phone Home 453.

Stebbins for the Innes May Festival Chorus take place every Tuesday and Thursday evening at 7:45 at Park's Hall, 26 S. Spring street.

Henry J. Kramer forms adult beginning dancing class, Tuesday evening, May 16. References required. 932 Grand

The Midway Bungalow opens June 15. Tennis and cottages for housekeeping.

Just like home to the tourists, Hotel Roslyn, 433 S. Main street. Meals 25c.

Another baby day at Graham's Photo Studio, 1215 S. Spring street, city.

"The French Restaurant de Casino" will serve you the best Friday French dinner in the city for 50c; five courses, wine and black coffee included. Family entrance, Casino Theater Lobby, 246

S. Spring. A. Mars, manager; G. Langlois, late with Martin's, New York, "chef."

There are undelivered telegrams at the Postal Telegraph Company's office for Standard Salt Co., H. S. Stamps & Co., Shilling Norton Co., F. B. Clark, Mrs. Lee Gering, J. P. Ward, J. J. Dunsberry, J. Edwards George. There are undelivered telegrams at the Western Union telegraph office for Miss Daisy Lewis, E. G. Clark, Mrs. E. O. Gueley, Frank J. Freeman, Mrs. Hettie Ingers, Mrs. Rosanna Leconner, William G. Franke, Lloyd Damron, Miss Nellie M. Allee, Robert Bacon, H. S. McCormick.

COCKING MAINS EVERY SUNDAY.

ATTORNEY WOULD PROSECUTE WITHOUT FEE.

Makes Starting Representations to Society for the Prevention of Cruelty to Animals—President Lamb Not Ready to Make a Statement as to His Intentions.

Cockfighting goes on secretly every Sunday in a cellar in the suburbs of Los Angeles. Half-breed sports sit around on their hams, watching game cocks clawing each other to chicken fricassee with cruel steel spurs, and betting their nesters on the blood.

Such is the representation made by Attorney Horace Appel yesterday in a burning communication to the S.P.C.A.

He wants to know why his clients have been prosecuted for attending the cocking main at Hunter's ranch, and these other men are not brought to justice.

He has made the offer to produce witnesses of these Sunday fights, and to act as counsel for the society without fee.

He states that "Nacio Bilderrain is the chief impresario with a grocer named Gola. The S.P.C.A. has not determined as yet what to do in the matter.

Dr. Lamb, president of the society, was asked for a statement. He admitted that the rumor of the offer having been made was partly correct. He begged to be excused from making a statement as to the intentions of the society until the return of its attorney, Earl Rogers, who is in Santa Barbara trying a criminal case.

Appel confirmed the report that he had made the offer to the society. He said that the boys I am defending are in no sense cockfighters. They just happened to come along there by Hunter's ranch; most of them had never seen a cockfight before and have not seen one since.

The professional cockfighters who got up that cocking main at Hunter's ranch seem, however, to have escaped. "We at first thought of attacking the constitutionality of the law under which my clients are prosecuted. All the attorneys with whom I have spoken agree with me that it would not stand. But we do not wish to take such a measure; I think it is an excellent and necessary law, and do not wish to be a party to throwing it out.

"At the same time, I do not think these professional cockfighters should escape and these boys suffer punishment. "I am willing to give the society credit for being in ignorance of the existence of these Sunday fights. Therefore I make this offer: "I will furnish all the evidence and prosecute the cases for nothing. If the society will begin the prosecution.

"I am prepared to show that these cockfights are held in cellars at or near South Pasadena, one at Ballona, and one in Sonoratown.

"The general public is not admitted, the fighters being wary since the raid at Hunter's ranch. You have to know the 'high sign.' "Appel claims that cockfights have been going on in and about Los Angeles regularly for years. Bilderrain is said to be one of the most persistent offenders.

Another Big Purchase
Silk Suits Worth \$18 \$9.75

Yesterday we received by express 100 of the most beautiful silk suits bought by our New York office at an average price of 60c on the dollar. Many stores in Los Angeles have paid as high as \$12.00 at wholesale for these identical suits and no store has offered them this season for less than \$18.00.

There are 100 in the lot and every style is of the most bewitching prettiness. Some come in shirt waist effect, others in jacket style, and they are variously trimmed, some with Val. lace insertion, some with shirring and box pleats. The colors are blue, brown, leather color, red, and other wanted colors, either changeable or plain. These suits go on sale this morning at \$9.75.

\$15.00 Pongee Silk Coats \$9.75

These stylish silk coats come in an excellent grade of pongee, made with the new leg o' mutton sleeves and deep cuffs, full pleated back, fancy open work collar. The coats come in the popular 37-4 length. These are actual \$15.00 values. On sale today at \$9.75.

SPECIAL: Kayser silk gloves, 12 and 16 button lengths, in white and black, \$1.00 per pair.

OXFORDS OXFORDS OXFORDS
Oxfords Everywhere

Kranich & Bach Pianos

Grands and Uprights

Few other creations of the piano builder's art are comparable, either in construction or in the perfection of results, to the Kranich & Bach piano.

For evenness of scale, depth, sonority and singing quality of tone, not lasting for one or two years, but through a lifetime of usage; for ease of action, conforming to the player's every wish, whether in stormy symphony or stately legato, and for absolute artistic perfection in contour, the Kranich & Bach piano stands unapproached and unapproachable.

Made in many shapes and sizes, for concert hall or private boudoir, and constructed of woods to harmonize with particular styles of furnishing, the Kranich & Bach piano supplies every desire of the prospective piano purchaser.

Our extensive exhibit of these beautiful instruments is both interesting and instructive.

Geo. J. Birkel Company,
345-347 South Spring Street

A Still Better Offer from Our Piano Dept

When we first began selling pianos we offered certain advantages that had never before been extended to the Los Angeles public.

The wisdom of our policy has shown itself by the extraordinary growth in our piano business. The public has given us such hearty support and our pianos have met with such wide favor that we now propose to make even greater concessions, thereby enabling every family in Los Angeles to place a high grade instrument in their home.

Commencing with the First of May we offer any upright piano in our department including those beautiful standard instruments that have taken gold medals in all parts of the world for payments of \$5.00 down and \$5.00 per month—no interest.

This does not mean that we restrict you to the choice of any particular pianos but you may select any upright piano in our department and purchase the same on these terms.

It is needless to say that no person would think of making a purchase without first coming to Brent's.

Brent's

PEACE BIRD CAUSES WAR.

Game Protectors Withdraw Conviction Rewards.

Supervisors Kept Dodging by Loud Roars.

One-day Dove Season Not Gently Accepted.

"We shall pay no more rewards for the arrest of persons breaking the county game laws," said the supervisors of the Los Angeles County Fish and Game Protective Association yesterday.

The joy that the righteous are supposed to feel after an act of exceeding great piety does not permeate their emotion boxes in spite of their voting to save the coming doves from the guns of the hunters.

Already, before the new closed-season ordinance has been drafted, they are feeling a storm of wrath. This defile of the Game Protective Association is only a sample copy of the roar that has gone forth from the hunters of this community.

There has been such a fuss that one of the supervisors, who presided over the meeting yesterday, expressed the belief that the ordinance will have to be repealed.

SHOOTERS' LOUD ROAR.

No one outside of politics can realize the pressure that has been turned on within the past two days since the adoption of the sweeping dove ordinance, allowing hunters to be shot only one day in the year.

Supervisors have been rung up by telephone at the rate of one a minute, and a dark brown turn.

Yesterday a crowd of sportsmen went to the table where two of the boards were at luncheon in a café and shrieked them to a crisp.

One of the boards is known to have political aspirations of a higher job, they have dared him to run for it now. The things these sportsmen are going to do are just simply dreadful.

One of the directors of the association explained their rampant attitude yesterday.

"We have done more than the supervisors ever thought of doing to protect the wild game of this county. They have passed the laws; but we have put up our good money to protect them. Last year we spent over \$600 in \$25 rewards for the protection of the game."

"Why, gee whizz, we have been the best crop the farmers have had in sections of the country. 'We appointed the good old farmers game wardens. Every time they heard a shot they would leave the horses hitched to the plow and go hopping down the furrows after the man shooting out of season. The man who was grab him by the collar and march him off to the justice court; then draw down the \$25 from us. That was like plowing up gold mine."

"After all this, you would expect that they would listen to us with some respect, but they don't. They are our suggestions about letting the old dove ordinance alone, wouldn't you?"

"Well, they just passed us up like an old rag," he said.

"We had a petition in signed by some of the best men in the city, and a lot of the board, asking them to let the old law stand. They couldn't see it."

"Henry Keller, who got up before the board in his capacity of ex-chairman of the State Fish and Game Commission, and advised them to forbid the shooting of doves, previously signed our petition. He was a game warden. Presumably he did this in his unofficial capacity."

"We have roared him for it. He is a game warden, and he should give us some protection, we are not good enough to pay out any more money to protect the game."

The association consists of about 1000 members. Supervisor Patterson, who was one of the opponents of the dove season being closed, said yesterday: "I think the ordinance was too stringent, and it is no use to pass a law that can't be enforced. Furthermore, there is no danger of exterminating the doves. The San Fernando and Antelope valleys are full of them. It was a mistake to have antagonized the better class of the hunters."

"I think the State law is enough; it forbids the sale of doves and cuts down the bag."

As to the other side of the controversy—the dove side—they don't have to say anything; they've won.

WINNIE ACQUITTED.

Was Charged by Dr. Johnston With Having Made Away With Block of Mining Stock.

Yesterday the Times published an exclusive dispatch from Indianapolis telling of the troubles of Dr. James Johnston, formerly of this city, who had organized a \$2,000,000 mining company on no other property than a hill about sixty-five miles from Los Angeles. It now comes out that this was but a sequel to the arrest, trial and acquittal of W. Winnie, a lawyer and mining man, this city, who was recently charged by Johnston with embezzling a block of several thousand shares of stock. According to advice received from Indianapolis, Winnie was acquitted by direction of the court a few days ago, the prosecution having failed to make a case.

Johnston's career is well-known in Los Angeles. In addition to his posing as a millionaire in the East and donating \$100,000 in stock to the medical college of which he is a graduate, and then borrowing \$15,000 in cash, he created a stir about a year ago by his sensational adoption of a young girl in an Indiana town.

His course resulted in his removal from the management of the company, after which he left this city and a few weeks ago made charges against Mr. Winnie at Indianapolis.

"PRINCESS PHOEA."

Pretty Amateur Production at the Mason Last Evening, With Many Boys and Girls in Cast.

A group of amateur players of all sizes, pretty costumes, and a fairly interesting stage story pleased the audience that assembled to see the premier of "Princess Phoea," at the Mason last evening. The production was not large, by any means, but what it lacked in size it made up in demonstrations of approval.

The children "got" that crowd after

Marion Badger as "Princess Phoea."

awhile; was there ever a crowd of real human beings that couldn't be brought to time by children?

Along at the end of the first act there was a "fairly dance," and the story told in it was just lapses of their words. They had a little hop-skip-and-jump step at the end of each measure, and as each-contrasted a little individual seizure of stage fright there were many more skips and jumps than there were white-stockings little girls—and that was very many.

The quaint little bobs of the wee chorus maidens in the front row, and especially the little staircase jumps of a chubby-cheeked fairy at the extreme left end—were the funniest things of the performance.

Seriously considered, Marion Badger—"Princess Phoea"—easily out-classed all the other girls, and carried away the individual honors of the presentation. Miss Badger, in addition to the ease acquired by some professional training, was a pretty face and figure, a very graceful natural manner, and a clear and resonant high soprano voice—lacking in power, but nevertheless of pleasing quality.

Of the male voices, that of Evan Baldwin was heard to the best advantage. Baldwin possesses a resonant baritone, used with fair skill, and is a good singer.

John J. Cooke, as the king, enacted the comedian's role with very creditable spontaneity. Getting better results out of it than could probably have been effected by any other man in the cast.

Harry Wood, as Pierrot; Florence Dickinson, as the queen; George DeFour, as Horribilis; R. D. Timmons, as Maximilian; and Effie Ingalls, as Aminta, deserve mention.

The cast was a large one, and the entire production was under the direction of Miss Franc Merchante, who has assiduously toiled for many weeks in the preparation of the play.

Miss Merchante's endeavors are very commendable, and with successful results in whose guidance she should have employed one skilled with the baton. Being properly made a very good showing.

"Princess Phoea" is an enterprise of Poshaw, a very good show.

The final performance will be given tonight.

MAY MEAN FORTUNE.

Former Los Angeles Resident Returns to Find Property He Owned Worth Many Times Its Cost.

If there is any method under the law by which a man can redeem real property sold several years ago for taxes, one former citizen of Los Angeles will get a fortune sufficient to keep him in luxury for the balance of his days. He is Maj. C. H. Twine, who for nearly thirty years was a resident of this city, but who for the past fourteen years has been in other and less favored sections of the world.

He returned yesterday, intending to pass the remainder of his life here.

Maj. Twine is a colored man, who was known to practically everybody in Los Angeles for the balance of his life. He was a very successful business man, and during his residence here acquired considerable property, including lots in the Pico Heights district, others along the Adams street, and others near Agricultural Park, and also property at Santa Monica. The total value of his property was not more than \$1000, but he has discovered that some of it is worth between thirty and forty times what he paid for it.

Twine is a man of about 60 years of age, and he is said to have no taxes on his holdings, and the property was sold. He will employ an attorney, and endeavor to redeem his land. If that can be done under the law, if he succeeds he may yet be worth between \$40,000 and \$50,000.

ATHLETES GO NORTH.

Willhoit and Murietta, who will represent Southern California at the track and field meet at Berkeley tomorrow afternoon in the Pacific Coast championship events were scheduled to leave for the north tonight, and Parsons and Coach Holmes of U. S. C. will go today. These boys are expected to show what kind of athletes they are in this end of the State and their friends are predicting that they will bring several championships back.

Parsons is the main hope of the south and will run in the 100, 200 and 400-yard events. He is a very fast runner, and he is said to have won several championships in the past. He is a very good athlete, and he is said to have won several championships in the past.

The local men will have anything but a snap at Berkeley, for they will have to go up against the best men in the State in Redding, Hall, Dole, Plaw, Miller and Glarner, and if they beat any of these they can well feel

MARVELOUS IS CITY'S GROWTH.

School Census Shows Two Hundred Thousand.

Gain of Sixty-four Thousand in Two Years.

Eighty-eight More People Here Every Day.

The present population of Los Angeles, based on the 1900 school census, is 201,394.

Every ward in the city shows an increase, and an immense total gain is noted over the returns of last year.

The count has been thorough and complete, and it is perhaps the fairest possible enumeration that could be made. Working far into the night with an extra force of deputies, Census Marshal Bert Farmer concluded his systematic count of the city's population.

Since April 15, more than seventy-five men have been hard at work all over the city gathering the desired information, which has been tabulated by an army of clerks in the basement of the Grand Avenue Public School building.

There were those who declared that the enumeration could not possibly reach higher than 150,000, and there were others who believed the count could not reach 200,000.

The work has progressed thus far with remarkable smoothness; the end is already in sight; the big white sheets with their endless lists of totals are almost completed.

The work has been footed up ward by ward, and the increase has been noted in all except the Eighth. The heaviest increase was found in the Sixth, with 16,629.

The work of enumerating the population of a city the size of Los Angeles has become a stupendous task, and the time allotted in which to make the count is so short that the work has to be accomplished in record-breaking haste in order to finish within the limit.

SIXTH WARD LEADS.

The Sixth Ward leads all the others in the net gain, which has reached a total of almost 16,000. The total for the sixth is 16,629.

The Fourth Ward is a good second, with a total population of 22,900, showing a gain of more than 5000 over the count of last year.

The Seventh comes next with a total of 22,700.

The Third next with 22,551.

The Fifth follows with 21,692.

Then comes the Second, with 20,708.

The Eighth shows 18,631.

The First totals 18,629.

The Ninth brings up the rear with a total of 12,771.

Soon after the earliest returns were received, Census Marshal Farmer estimated the population of the city to be about 200,000. This estimate was published in the Times, and was very close to the actual count.

The population of the city in 1900, 1904 and 1905.

WHEELBARROW AMPUTATES.

Strange Accident to Italian Laborer Falling from Plank While Working on Sunset Boulevard.

One of the most peculiar accidents that has come to the notice of the police surgeon, which happened to an Italian laborer named Angelo Ditoe, early yesterday morning.

Ditoe had a finger amputated by a wheelbarrow, though he probably does not even yet know for himself that such was the case. He was working for an electric railway at the crossing of the Sunset boulevard and the Glendale street, where a new bridge is being built over the Glendale street.

He was working on a plank, and was about to get at the detailed facts and to secure evidence owing to the manifest reluctance to talk among those who are believed to know or who have privately, it is said, admitted their knowledge of matters bearing upon the situation. When the government officials get down to work this will probably be overcome.

SUPPLY AND DEMAND.

The question of supply and demand should enter into the investigation very extensively. The Associated claims there is an enormous overproduction—20,000 barrels a day, General Manager Porter says—and there are others who

ONLY TOE-STUB, NOT REAL KICK.

SEEMING BLIGHT OF SALT LAKE DUE TO AN ERROR.

Council Finds Utah People's Invitation to Join in Railroad Jubilee Went Astray Through Mistake.

Regrets and Acceptance Wired. Big Reception for Visitors.

It seems that Los Angeles loves Salt Lake, after all.

The kick downstairs was due to a stub of the toe, according to an investigation that was made yesterday by the City Council.

Learning for the first time through the Times of the celebration to be held in the Utah metropolis over the failure to receive a reply to an invitation to join in a celebration on the opening of the new Salt Lake line, members of the Council found that the original communication from the Salt Lake Council went astray.

The letter was referred to the Finance Committee with a request for funds to join in a jubilee. Through a misunderstanding the clerk failed to make the necessary notation and no action was taken. Yesterday, the following telegram was sent by City Clerk Leland to Mayor Morris of Salt Lake:

"The City Council of the city of Los Angeles sincerely regrets that no notice has been given you of its acceptance on behalf of the people of this city of the invitation extended by your City Council to cooperate with it in arranging a public celebration to take place upon the occasion of the driving of the last spike on the Salt Lake and New Orleans Railroad."

"By direction of the City Council I am authorized to notify you that it has accepted the invitation of the city of Salt Lake and most heartily approves of the proposal that the celebration of the railroad jubilee in Salt Lake City and Los Angeles be made the occasion of a public celebration in which the two cities shall participate."

"Los Angeles will do everything in its power, in conjunction with Salt Lake City, to make such a celebration befitting the great importance of the event."

"A committee of the City Council will meet with and cordially cooperate with your Council committee in making arrangements to properly celebrate an event so notable in the history of Salt Lake City and the city of Los Angeles."

Partial preparation for the unintentional blunder will be made by the arrival here Monday of the Salt Lake Commercial Club, numbering 125. In the evening the members will be royally entertained at the Chamber of Commerce.

The programme, as outlined by Chairman A. M. Skinner, contains a number of interesting features. The club will be met at the Salt Lake station and will be "personally conducted" to the various hotels. In the afternoon they will be shown around the city, or may make themselves comfortable in the apartments.

There will be a trip Tuesday to Catalina, with all the courtesies the Banishing Company can afford.

President Keady has appointed a strong committee to assist him in receiving and entertaining the guests.

MISTAKEN FOR ROBBERS.

Six Young Women Frightened Almost Speechless by Two Policemen They Meet in the Dark.

"Send a policeman at Twenty-third and Hope streets at once. Two men have just tried to hold-up and rob six young ladies."

This was the message which an excited man telephoned to the Police Station shortly before midnight. The caller, particularly, he said the six young women were returning from a party when they were met by two men who flashed lanterns in their faces and commanded them to halt. Like a covey of frightened quail, and with voices more noise than the girls scattered, some of them running for their homes and others seeking refuge in nearby houses.

The supposed hold-up men were had not the slightest idea.

So excited was a dark man who notified police headquarters, and so positive was he that a crime had been attempted, that he refused to leave the scene until the place to investigate. They soon found that the cause of the scare. Two patrolmen had met the party of young women and, having approached them, they had their small electric pocket lamps but had not ordered them to stop. In the darkness, the girls did not notice the uniforms of the officers and scattered before the latter could tell who they were.

WATER CUTS FIGURE IN THE OIL PROBING.

COMMISSIONER OF CORPORATIONS GARFIELD will leave Los Angeles for the Texas and Louisiana fields at noon today, after having laid the foundations of the work which will be carried on by his assistants who are now in the city. It will be impossible for him to make a personal visit to Bakerville, owing to lack of time. While this will be regretted by the producers, it is expected that the conditions will be thoroughly looked into by his subordinates.

Among oil men all over the city the interest in the matter of freight rates, alleged rebates and all forms of discrimination is growing. The greatest difficulty in all inquiries seems to be in every case to get at the detailed facts and to secure evidence owing to the manifest reluctance to talk among those who are believed to know or who have privately, it is said, admitted their knowledge of matters bearing upon the situation. When the government officials get down to work this will probably be overcome.

SUPPLY AND DEMAND.

The question of supply and demand should enter into the investigation very extensively. The Associated claims there is an enormous overproduction—20,000 barrels a day, General Manager Porter says—and there are others who

ESPEE ENTERS SLASHING FRAY.

Meets Santa Fe Cut in Fares to Points East.

Claims to Spring a "Joker" on Its Opponent.

Through Service Over Salt Lake Line in Fall.

Another move in what may prove to be a lively passenger rate war from California to the East was taken yesterday when the Southern Pacific announced that it not only would meet the recent action of the Santa Fe in declaring a rate of one fare for the round trip to Chicago and Kansas City, but would extend the privilege to various other cities.

The Southern Pacific offers round-trip tickets on certain dates in May, June and July at \$20 to Missouri River points; \$27.50 to St. Louis, Memphis and New Orleans; \$70 to St. Paul and Minneapolis, and \$72.50 to Chicago.

Tickets at these rates will be good for return within sixty days from date of sale, and probably will have stop-over privileges in each direction, although this matter has not yet been determined.

Where the Southern Pacific expects to have the advantage over the Santa Fe is in the fact that the former road will offer a choice of routes going and coming, permitting passengers to go one way and return another at the reduced rate. The Santa Fe, however, will apply only on tickets via Portland.

Southern Pacific officials say, however, that tickets sold by the Santa Fe in these rates will not be good in either direction over the Santa Fe, nor will the Southern Pacific accept anything but the regular fare on tickets sold by the Santa Fe and routed one way over the Southern Pacific.

The Santa Fe states that the fight several weeks ago, when it announced that it would sell round-trip tickets to Chicago and Kansas City at one fare on certain dates in addition to the one fare rate that had been agreed upon by Transcontinental Passenger Association lines for conventions in the East.

This action was taken in the regular manner provided for members of the association, but apparently was unexpected at the time by other lines.

It was stated at that time by the Santa Fe that it wished to extend the low rate privilege to patrons, who might desire to go East, but who would not attend the conventions at remote points.

The Santa Fe did not announce then just when the rates would be effective, but this information was extended yesterday, simultaneously with the Southern Pacific's of its determination to adopt similar low rates.

The dates of sale, as announced by both companies, are May 18, 21, 25 and 29; June 14, 18, 22, 26 and 30; and July 4, 8, 12, 16, 20, 24, 28 and 31. These dates are those on which one-fare round-trip tickets are to be sold. The Santa Fe also includes the general assembly of the Presbyterian church at Winona Lake, Minn., and the annual convention of the National Educational Association, at Albany, N. Y.; Christian Endeavor, at Buffalo, N. Y.; Independent Order of Foresters, at Atlantic City, N. J.; and Modern Woodmen of America, at Ames, Iowa.

The Salt Lake line, also has issued instructions to its agents to sell tickets from its territory to the points mentioned, at the same rates applying via other lines from this section.

LOMAX DROPS IN.

E. L. Lomax of Omaha, general passenger and ticket agent of the Union Pacific, and S. F. Booth, general agent of San Francisco for the same company, arrived yesterday. They were in conference with R. W. Gillett, general freight and passenger agent of the Union Pacific, with which the Union Pacific has a close traffic alliance, and mingled freely with other local railroad men.

"It is not likely that regular through car service between the Union Pacific and the Salt Lake will be established before next September," said Mr. Lomax. "The present is the beginning of the summer season, and the need for this through service is not so great as it will be later."

It is desired first to learn just what the requirements will be—then the proper arrangements can be made for carrying them out.

"The Union Pacific is well able with its present trains to care for the business that will be delivered to it at Salt Lake City by the new line and, of course, will take care of all through cars delivered to it at that point."

Expected numerous tourist sleepers with passengers for various points will be delivered to our line at Salt Lake from time to time, but the business has not yet been developed to the extent that through trains will be justified.

"A railroad company naturally does not wish to haul empty cars, but it always will find a way to take care of them. As soon as the nature and volume of business done by the Salt Lake line can be determined, the necessary arrangements will be made for trains to run through from Los Angeles to Omaha, Denver, Chicago or wherever they may be demanded."

Mr. Lomax, who is making his first visit here in two years, will remain several days at the Hotel California, and will travel to the Portland and Exposition from the East premises to be happy, although it will be from the more western territory, and especially from the North Pacific Coast.

STUB ENDS.

RAILROAD REVIVALS.

A rate of a fare and one-third has been announced by the California State Realty Association convention at Los Angeles May 25-27, with a similar rate for the points to be made for the Travelers' Association of California at San Francisco, May 5

DEAD HEAT IN HANDICAP

Synonby and Race King in the Metropolitan.

Colonial Girl Third and Time Good.

Forecast of Britt-White Ball and Races.

(BY DIRECT WIRE TO THIS TIMES)

NEW YORK, May 4.—[Exclusive Dispatch.] Belmont Park threw open wide its gates this afternoon, and something like 50,000 "come-ons" left money with three hundred bookmakers. The weather god smiled serenely until noon, when a most remarkable change occurred, and within two hours the temperature had dropped 30 degrees and the cloudless sky was thickly overcast with cheerless clouds. Thousands of women who went to the park clad in spring flairs nearly froze the first hour, and were compelled to leave early. Millions have been spent in embellishing one of the prettiest spots in the neighborhood of New York, and befitting the day and the occasion, the crowd went to the track well supplied with coats, and fought like demons to leave it with the bookmakers. A great feature of the track is the extra inducement to attract the poorer ones and get their money. The 50-cent find stand is in every way as elegantly appointed as the grand stand and will accommodate 16,000. It was packed today.

The California colt First Water, showed himself to be the greatest in years by romping home with a juvenile stamp, five furlongs in 0:33 2-5.

The mighty Belmont was disgracefully beaten in the Metropolitan Handicap by a field she would have despised last year. Synonby and Race King ran a dead heat, with Colonial Girl third.

NEW YORK, May 4.—One of the greatest crowds that ever gathered on a thoroughbred race in America was at Belmont Park today, to witness the sensational running of the Metropolitan Handicap, which James R. Keene's 3-year-old Synonby and O. L. Richards' hardy 4-year-old King finished close together. The judges were unable to separate the two, and the judges announced that the race was a dead heat. The public, however, was not so easily satisfied with the result, and the purse of over \$14,000, was divided between the two favorites in the betting. The stable man, Deini, having been withdrawn from the race, offered to the public Race King, who there were few who thought highly of the Tenny colts' chances. The time of the race was disappointing, showing that the Belmont tracks are still "new" and slow.

More than fifty thousand persons were at the race. Racing men of prominence from all parts of the United States, and the inauguration of the new quarters of the Eastern Club, the governing body of the race, added to the intense excitement. The new track came the unexpected. The Metropolitan Handicap, which drew a record of 50,000, extending back to 1891, has been marked by the fact that the thousands of the great crowd under the long stretch, and the scene was thrilling. Belmont, the champion filly of last year, was forgotten and the race was a draw. Half a score of other thoroughbreds were thought of, as the two leaders rushed. The crowd of thousands went to the post, Deini, Pasadena, Tanya and King, having been withdrawn. The scratching of Deini made Synonby the favorite, at odds of 2 to 1. The race was heavily played at 4 to 1. The two carried the bulk of the wagers.

After a tiresome delay at the post, the horses broke the rail, and showed for an instant in front, but Synonby was at her side, and before the first quarter pole had been reached, the Kentucky colt had a ray of hope for a moment as the mare drew out of the struggling mass and shot into third place. Synonby seemed to have a clear lead of two or three lengths on the far turn, but Shaw eased up in the face, allowing the field to close on him.

The Colonial Girl and Race King dropped behind and Santa Catalina, who dropped back hopelessly beaten, finished the race. The Colonial Girl, who was not far away, Synonby was seen to bear away toward the outside rail, and at his side was Race King.

To the event the most hardened race-goer, the struggle between the two was as to send a lump into the air. There was an instant's silence as the thoroughbred dashed along the rail, and then the other, as they passed every fiber to gain an inch. Shaw and King, who were driving like mad, but to no purpose, and the judges were unable to separate them.

The shouting multitude, which had been sent for an instant by the royal struggle, broke out in cheers as the crowd went up denoting a dead heat. The judges were unable to separate the two, and the race was a dead heat.

The shouting multitude, which had been sent for an instant by the royal struggle, broke out in cheers as the crowd went up denoting a dead heat. The judges were unable to separate the two, and the race was a dead heat.

AT THE COURTHOUSE. BOTH ARRESTED IN SALT LAKE.

TWO MEN TAKEN WHEN SHERIFF WANTED BUT ONE.

Gus Stokes, Accused of Grand Larceny Gets Another Man in Trouble by Exchanging Tickets. May Not Be Brought Back—Important Divorce Ruling.

Edwin H. Emery questioning Mrs. F. V. Taylor, who has charged him with larceny of her trunks.

Morse & Co., \$1200; Commercial Engine Company, \$1400; S. J. Smith Machinery Company, \$1800. Chairman Longden and Supervisor Alexander took the stand that other things being equal the lowest bidder must under the law be awarded the contract, but Patterson and Graham inclined to the opinion that all things were not equal.

THE INFAMOUS COURT. OLD ROMANCE TOLD IN COURT.

MAN WHO "LOOKED AFTER THINGS" ARRESTED.

Bill of Sale Proves to be Evidence of Community Interest in the Property and He is Released—Love Story of the Long Ago is Brought to Light.

An old love affair that began in Minneapolis more than thirty years ago and ended last Thursday in Long Beach, had a cautious airing yesterday in Justice Chambers' Police Court.

Edward H. Emery had been arrested on a grand larceny charge for having removed from the property of Mrs. F. V. Taylor, No. 1411 South Bonnie Blue street, four large trunks filled with sundry articles of wearing apparel and a bra.

Mrs. Taylor, who is 51 years of age, sat in the courtroom as though in deep sorrow before the trial began, but she was, in fact, nursing a toothache. Emery, likewise, about 30 years old, looked fearful but defiant, and it looked like a common case of stealing until Mrs. Taylor had made his story.

The prisoner doesn't look like a thief, and when he arose to act as his own attorney, he stuck his thumb in the armpits of his vest, elevated his chin and looked defiance at his accuser. And, what is more, he made good, and was discharged from custody without having to go on the stand in his own defense.

Mrs. Taylor had testified that she had known the defendant for thirty years; that he had been in her employ to look after things in Philadelphia in this city and in Long Beach, and had been discharged on last Thursday.

Little by little the story leaked out. There was much wonder in the court when Emery drew from Mrs. Taylor the statement that thirty years ago in Philadelphia he had been married to a woman named Mary Taylor.

"Whose child was the little fellow away?" asked Emery of Mrs. Taylor.

"Yours," was the brief reply, while the court began to wonder what was coming.

"Was I at home?" he next asked. "No, you were not, and I had gone to your house to nurse a sick child at the request of your wife."

Everybody wondered what this had to do with stealing four big trunks. Next Emery made a dramatic demonstration toward the trunks, which stood there as mute witnesses against him, and drew from Mrs. Taylor the statement that she had been in his employ to look after things in Philadelphia in this city and in Long Beach, and had been discharged on last Thursday.

When the pair arrived here Mrs. Taylor purchased property in the aristocratic neighborhood, No. 1411 South Bonnie Blue street, and all the goods were taken there and put into the house in common.

Some time ago Mrs. Taylor rented a house at Long Beach, and put a trunk in her house in this city, and Emery accompanied her there. The trunks were left in the stable at No. 1411 Bonnie Blue street. The only explanation of the disagreement between the two, was in the statement of Mrs. Taylor that she discharged Emery from her employ. If the case had gone on far enough to get Emery on the witness stand there might have been more racy details, but the prosecution, and Emery was released.

He said to a reporter of The Times, that he was "contented." "I have not seen it for so long that I really forget. It is no bill of sale at all," the 30-year-old man said. He said the two will be amicably adjusted, as there were evidences that already efforts had been made at an agreement between them.

He didn't wish to talk, and hurried away, after an interview with Mrs. Taylor. In the presence of the detective, the trunks were ordered returned to her house on Bonnie Blue street, and the indications are that the trouble between the two will be amicably adjusted, as there were evidences that already efforts had been made at an agreement between them.

POLICE COURT BRIEFS. MORE WHISKY FINES PAID. The sticking of blind pigs continues in the Police Court. Yesterday Jacob George paid a fine of \$200, and his wife, Pauline, paid \$15. William Williamson, a one-legged

DOWN ELEVATOR SHAFT. Susan E. Bane, best suit against the Chamber of Commerce yesterday for \$15,000 for alleged personal injuries sustained by reason of what she avers was carelessness on part of the defendant. She was employed at the Herald office as a copyholder, and about 3 o'clock on the morning of October 23, she started through a dark corridor in the Chamber of Commerce building, and stepped into an elevator shaft which had been left open. She fell twelve feet to the floor below, and sustained serious injuries.

BUSINESS MEN SATISFIED WITH PRESENT CONDITIONS.

Mammotion Protest Against the Adoption of Legislation Which Might Curtail Usefulness of Electric Railroads in Los Angeles. Council Asked to Shelve Proposed Ordinances.

Los Angeles business men, who yesterday petitioned the Council Committee on Legislation not to assume a hostile attitude toward the street railway companies, expressed their present conditions to remain undisturbed.

Five separate petitions were presented to the committee by Secretary Zechandelaar of the Merchants' and Manufacturers' Association. They bear the names of practically every captain of industry and large land owner in Los Angeles.

Attorney John G. Moit, representing the petitioners, asserted that on the petitions are the signatures of the persons and firms that pay at least 50 per cent. of the city's taxes.

Never before has business Los Angeles expressed itself so pointedly or so unanimously on a question of public interest.

These petitions were presented to the Legislative Committee as a protest against the passage of ordinances submitted to the Council for its consideration to permit present conditions to remain undisturbed.

Two weeks ago a number of property owners and contractors protested to the Council against the tax which the Water Board levies for the protection of connections with new buildings.

The protest calls attention to the fact that the Water Board is levying a tax on the use of public utility corporations which is not levied on the use of private property.

Attorney Todd appeared before the Committee on Water Supply yesterday morning to argue the case of his clients, the protestants.

As set out in the petition, it was the contention of the protestants that the Water Board is levying a tax on the use of public utility corporations which is not levied on the use of private property.

The committee report is decidedly apocryphal. Here are a few extracts:

Why not build your seaside home at beautiful Playa del Rey, where you may be in touch with city life and still enjoy the daily delights of the seashore?

Hundreds of people visited this delightful seaside resort this week and all were impressed with the progress of improvements made within the last few days. Wide promenades have been constructed in the new beach addition and other notable improvements have been made. Beautiful residences grace this attractive watering place, notable among which are the homes of Oliver Morosco, W. W. Burton and Frank A. Garbutt. Every residence site has a combined mountain, valley and ocean vista. Construction work on three more fine homes will commence this week.

Only 15 miles from the business center of Los Angeles—the nearest beach.

Pleasure pavilion is the second in size on the Pacific Coast.

Lots 35 to 40 feet wide with 20 foot speedways—Ocean or Lagoon frontage.

Only resort with open air still water bathing—perfect beach for surf bathing.

Playa del Rey Home of Oliver Morosco

Playa del Rey possesses a wonderful combination of scenery and climate—and its many natural advantages supplemented by substantial and costly improvements cause it to stand out in deep contrast when compared with other western coast resorts.

Prices of Lots Very Reasonable
Terms 1-3 Cash, Balance in 1 and 2 Years

High-class building restrictions—no undesirable structures.

Retaining walls will be constructed along the natural Lagoon. Promenades bordering Lagoon will be brilliantly illuminated at night.

Sewers, gas and electricity. Fifteen minute service to Ocean Park.

Every dollar spent in improvements adds to the value of every lot. The improvements here are of both a private and public nature. You will gain a great advantage by purchasing your favorite site immediately. Choice lots have been selling rapidly within the last few days. Prices will advance very soon, and notice will not be given beforehand.

WOMEN'S CLUBS.

The Friday Morning Club will today hold a symposium of the great outdoors, which was a feature of the Club's second-annual session.

The Heritage of Wild Flowers will be given by Mrs. Alice Merritt Davidson, of Hollywood. Mrs. W. R. Myers, of Los Angeles, will give the talk on "The Flowers of the Air," and Mrs. L. A. Goffin, of Los Angeles, will give the talk on "The Flowers of the Sea."

The last-named is to be a symposium of the great outdoors, which was a feature of the Club's second-annual session.

HARVEY INQUEST.

Jury Renders Verdict of Accidental Death and Exonerates Railroad Company and Workman.

The switchman, Bert W. Harvey, who was killed in the Southern Pacific yard Wednesday morning, was crushed between a freight car and a depot platform. The platform was a new one and the car one of unusual width. In the darkness Harvey, who stepped aside to let a train pass, was unable to gauge the distance between the platform and track, and when a car a little wider than the rest came along it struck him and rolled him along the edge of the platform for a distance of eight or ten feet, literally crushing the life out of him in a very few moments.

Harvey was one of the youngest yardmen in the employ of the company. He leaves a widow and two young children at No. 1481 East Eighth street. The body was taken charge of by Cunningham & O'Connor where an inquest was held yesterday.

The jury rendered a verdict to the effect that death had been caused by being "crushed between a car and the platform and no blame is attached to either the Southern Pacific Company or his fellow-workmen."

NEW WAR CAMP.

Call for Spanish-American Veterans to Sign Roll—Rally and Smoker Saturday Night.

Theodore L. Sylvester, who was commander of the late Camp Meyer, Service Men of the Spanish-American War, is in the lead of a movement to organize in Los Angeles a camp of the United Spanish War Veterans.

Headquarters have been opened at No. 1234 South Spring street, where a rally and smoker will be held tomorrow night. To this gathering all veterans are invited. There are approximately 1200 in this county.

It is the desire of those directing the movement to secure 100 signers by May 15, when application for charter will be forwarded to the national headquarters of the United Spanish War Veterans.

It is possible the local camp will be organized in time to allow participation in the Memorial Day ceremonies.

Warding Off Old Age.

A famous French general, when asked how it was that he had such an erect carriage, replied that it was because he bent over and touched the floor with his fingers thirty times every day. If he had acquired rigidity of the spine so that he could not do that he would have had with it weak abdominal muscles, which result in portal congestion. This portal congestion interferes with stomach digestion and with the action of the liver. The poison-destriving power of the liver is lessened, auto-intoxication results and arteriosclerosis and old age come on at a much earlier day. But by keeping the spine flexible and the abdominal muscles strong and out the portal circulation is kept free and old age is held off.—(Good Health.)

Women in Our Hospitals

Appalling Increase in the Number of Operations Performed Each Year—How Women May Avoid Them.

Going through the hospitals in our large cities one is surprised to find such a large proportion of the patients lying on the operating tables are women and girls, who are either awaiting or recovering from serious operations.

Why should this be the case? Simply because they have neglected themselves. Ovarian and womb troubles are certainly on the increase among the women of this country—they creep upon them insidiously, and before they are fully developed the patient is in the hospital beds had plenty of warning in that bearing-down feeling, pain at left or right of the womb, nervous exhaustion, pain in the small of the back, leucorrhoea, dizziness, flatulency, displacements of the womb or irregularities. All of these symptoms are indications of an unhealthy condition of the ovaries or womb, and if not heeded the penalty must be paid by a dangerous operation.

When these symptoms manifest themselves, do not drag along until you are obliged to go to the hospital and submit to an operation—remember that Lydia E. Pinkham's Vegetable Compound has saved thousands of women from surgical operations.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (flatulency), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, loss of health, excitability, irritability, nervousness, etc., etc., they should at once take Lydia E. Pinkham's Vegetable Compound. Address, Lynn, Mass.

(NEWS REPORTS FROM TIMES CORRESPONDENTS.)

CHILD STEALING
CHARGE MELTS.PROSECUTION NOT LIKELY IN
SAN BERNARDINO.

Young Woodruff, After Being Arrested, Makes Explanation Which Proves Acceptable to the Missing Girl's Father—Says He Took Her to Pomona to Visit Sister.

SAN BERNARDINO, May 4.—Sheriff Ralphs this morning served Ed. Woodruff with a warrant of arrest, charging him with kidnapping his 15-year-old sister-in-law, Tessie Hays.

Woodruff was found at the home of the girl's father there. He explained that the child had wanted to visit a sister at Pomona, and that he had taken her there, but found that the sister had moved away, and not having ready money, he could not pay her fare home or to the home of her other sister, Mrs. Bohannon, at Covington.

This explanation was acceptable to the child's father, who urged the Sheriff not to put Woodruff in jail, until the girl had been questioned. The Sheriff consented, and directed the father to go immediately to Pomona and see the girl.

Evidently there will be no prosecution. The girl, though but 15, looks several years older, and her parents now declare she is well able to protect herself.

RUSHING NEW DEPOT.

Work on the Southern Pacific passenger depot is rapidly progressing, and the indications are that the building will be completed and occupied by the latter part of June. It is of the old mission style, with large arched openings and tiled roof, and is one of the most attractive buildings in the town. The company is planning other large improvements here, which include commodious freight yards and probably increased space for the freight house, all of which are necessary by the rapid growth of the business interests of the town and the surrounding valley.

DROPPING RESERVOIR.

The Arrowhead Reservoir Company has a force of ninety men at work on the proposed reservoir in Little Bear Valley, most of the work being excavating. The cement force will probably complete the dam within two weeks, weather permitting. The storm of the past few days have interfered somewhat with progress on the reservoir.

CHOICE VESTIMENT.

The annual meeting of St. John's Episcopal Church took place last evening. The vestry Rev. P. H. Hickman, H. E. Ely, W. G. Withers, Jay B. Minetta, J. C. Walker, Thomas Finlay and W. C. Hanning, who were chosen by a vote of 45 to 6. W. G. Withers was appointed a new vestry selected deputies to the council of the diocese as follows: Thomas Finlay, W. C. Hanning, C. Hanning, Alfred Davis, I. C. Walker.

JUVENILE TILL TAPPER.

William Daley, a thirteen-year-old son of prominent parents, was arrested last night by the police, charged with the theft of a cash drawer from the cash drawer of a local confectionery store. It appears from a confession made by the boy that he had been taking the cash drawer for some time, he having taken every opportunity when the proprietor was absent to sneak into the store. His capture came about by being detected in the act of slipping money from the drawer. He was recently involved in the robbery of a Chinese vegetable wagon.

DELIQUENCY LESS.

County Tax Collector L. C. Coy has completed a comparative statement which shows larger collections this year than last, and a much lighter delinquency list. In 1905 the total amount with 15 per cent. penalties was \$424,000, of which sum the amount left behind was \$18,781. This year's tax just collected amounts to \$433,562, of which there is left delinquent \$15,144.

HOLDS PREACHER BLAMELESS.

John Hays, a preacher of divine healing, who he alleged to have deserted an invalid wife in Los Angeles, leaving her destitute, has pitched a tent here with several members of the sect, and is holding nightly meetings.

SAN BERNARDINO JOTS.

Dr. C. G. Campbell has commenced suit against Thomas Dobson, a neighbor, to enjoin the latter from harassing a driver, who claims to have claims he has perpetual right to, having used it for fifteen years. The driveway leads over Dobson's property at P and Court streets.

Action for divorce was filed this

forenoon by Clara May Capell against Frederick C. Capell, the plaintiff charging cruelty and desertion.

Most of the delegates to the Woman's Parliament have returned to their homes, but the recent brilliant gathering is still one of the chief topics here. Already interest centers on the next parliament, which will likely take place at Monrovia six months hence, and in the assembly at Venice.

COLTON.

SEEK TWO MISSING LADS.

COLTON, May 4.—Two Colton boys have run away from home and left behind no clue as to their whereabouts. They are the sons of Milo Berdick and W. D. Carter, and are aged 16 and 18 years. To their notion Colton was far too small, and, filled with a desire to see the world, they disappeared from their homes on Tuesday. Nothing has been heard of them since. It is believed that Salt Lake City was their destination, and that they traveled in the accepted hobo style. Every effort is being made to locate the runaways.

HOTEL BIDS SOON.

Architects Harris and Pratt of San Bernardino have announced that the structure have been received for the foundation work on Colton's new three-story hotel and the firm will be ready to receive bids in a few days. Contractors are still figuring on the building. William Anderson, the proprietor-to-be, is in the East purchasing furniture for the establishment.

LOSE A LANDMARK.

Colton is to lose another landmark. The old adobe house in South Colton,

built by Dr. A. Thompson and for many years his home, is being torn down. The railroad has figured conspicuously in the history of this place. Many old residents of this place have vivid recollection of a time, about sixteen years ago, when the Southern Pacific Company obtained a right of way to build the motor track through Dr. Thompson's place and within only a few feet of his house.

These old settlers have recollections of a time at this crisis when Mrs. Thompson contracted with the prospect of having her home ruined, stationed herself with a loaded Winchester rifle under the shade of the orange trees on the outskirts of the place and remained there for several days, during which the Southern Pacific employed to place a foot on "Thompson ground" until the company should pay her for damages.

Now no do historians relate how this woman and her Winchester obtained from the Southern Pacific the sum of \$500. The Southern Pacific finally purchased the place and now, tearing down the adobe in order to change the course of the track.

WORM PLAGUE

IN RIVERSIDE.

PESTS DOING MUCH DAMAGE TO THE GREENERY.

No Deer Shooting or Trout Taking to be Lawful in the County This Year—Fraternal Brotherhood Active—Echo of Tom Hays Case in Trustee's Desk.

RIVERSIDE, May 4.—Countless thousands of worms, smooth ones and woolly ones, have descended upon Riverside and the destruction of everything green seems inevitable unless prompt measures are adopted by all property owners.

The sidewalks and roads are alive and one man reports having floated about two bushels of the worms off his lawn. All the flowers are being attacked and the alfalfa fields will be cut down unless something is done.

Individuals are working overtime in order to protect their gardens and lawns and all sorts of devices are employed. The army worms seem to be the greatest pest and are credited with most of the damage that is done.

NO DEER HUNTING.

The open deer season will be closed this year in Riverside County. The District Attorney is framing an ordinance covering the matter and it is understood that San Diego and San Bernardino counties will do likewise. In addition to cutting out the open time on deer the Supervisors voted to appoint a game warden for the next three months. E. F. Binder was named and received the appointment. The position carries with it a salary of \$600 per year with a \$25 expense account. Mr. Binder has been advised to appoint the different forest rangers in the county his duties during the summer season. In addition to disappointing the deer hunters, the trout season has been closed.

FRATERNAL BROTHERHOOD.

Five hundred members of the Fraternal Brotherhood assembled in Leighton Hall tonight for the election of officers. The contest was between the G. A. M. (Get A Member) contest. Within the last three months 175 new members have been received in the order and the Heds, the winners of the contest, are credited with sixty-six new members.

After a business meeting a banquet was given for the winners. The hall was handsomely decorated with red carnations and geraniums, crimson streamers and banners. All in all, a very successful evening. The music was furnished and the merry crowd danced until late.

ECHO OF HAYS CASE.

A trustee's deed was placed on record this morning, which transfers from R. B. Howe, trustee, to the Orange Growers' National Bank, lots 8, 9 and 10 of the Orange Growers' Bank addition, on November 16, 1905, after the default of Hays had been discovered, this trust deed was turned over to Mr. Howe by Tom Hays to cover shortage.

The lots in question embrace thirty acres and were bid in by the bank for \$2000 at auction. Orange Growers' property was included in the deed but since this land has been purchased by R. L. Bettner.

SANTA ANA.

MRS. HAVENS GETS DIVORCE.

SANTA ANA, May 4.—Judge West rendered a decision in the divorce action of Myrtle Havens of San Francisco against Minnie Havens of Orange, which case was heard last week. The plaintiff alleged desertion, but a cross-complaint was entered by the defendant, alleging both desertion and willful neglect. The decision grants the divorce to Mrs. Havens, who is also given custody of two minor children. Mrs. Havens' petition that she be allowed to take the children to the State of California was denied, a special provision of the decree providing that while she keeps the children they must be held unless different orders are issued, in Orange, under the supervision of the local court. There was no property involved in the case.

ORANGE COUNTY BRIEFS.

The Board of Supervisors have declared vacant the office of Horticultural Commissioner for this section of the county, held for several years past by A. D. Bishop of Orange. E. W. Camfield of Orange has been chosen as his successor.

C. W. Cushing of Warren, O., and Martha Anderson of Muncie, Ind., were married yesterday afternoon by Rev. J. H. Garnett of the First Baptist Church. The ceremony was performed at the parsonage.

The Oulgin and Gates evangelistic meetings tomorrow afternoon will be turned over to the children. The new 200-horse power pump at the waterworks is being installed.

Buildings for the new school during the month of April for seventeen structures to cost \$41,671.

FULLERTON.

CENSUS SHOWS INCREASE.

FULLERTON, May 4.—Mrs. Corrie Ford has completed the school census in Fullerton district. There are 227 children of school age, 115 are girls, making a total of 442. Last year there were 290 of school age. There are 190 families in the district. The school district there are 104 children of school age, an increase of 18 over last year. There are 17 children under school age.

Mr. and Mrs. George Amerige will leave in a few days overland for the fair at Portland. Mr. and Mrs. Ridenour will have charge of the St. George Hotel during their three months' absence.

The city of Fullerton is in a prosperous condition, as is shown by the collection of the real estate tax yesterday and out of a total property tax of \$446, it was found that the delinquent list figured up only \$60. This close collection is probably a record breaker in Orange county.

DROPS OUT IN VENTURA CITY.

HEAD OF THE WATER COMPANY SELLS HIS INTEREST.

Ill Health and the Prospect of the Bitter Fight with the Municipality Are Reasons to Which His Retirement is Attributed—Grocery Clerk Missing.

VENTURA, May 4.—A material change has been made in the affairs of the local water company. At a meeting last night E. F. Foster, president of the Bank of Ventura, and president of the Ventura Light, Water, Power and Gas Company, sold his entire interest in these latter corporations. Mr. Foster has been the president of the light, water and gas plant since it was acquired, a few years ago, by Los Angeles and Pasadena capitalists. Excepting for one year, he has been connected with the water company since 1877.

Ill health and the prospect of a bitter fight with the municipality, which has just voted \$125,000 bonds to put in light and water plants, caused Mr. Foster to resign. He is not strong physically, and last year was compelled to absent himself a long time from his business. As a director J. R. Martin of Los Angeles was put in place of Mr. Foster. For the present the vice-president, Mr. Adams of Adams, Phillips Co., will serve as president. This latter officer will be elected at the next annual meeting of the board of directors.

The existing water and light plants, the directors say, will be put in first class condition to suit the business of the town, when its plants are installed.

GROCERY CLERK MISSING.

His friends are inquiring as to the whereabouts of Albert Stedman, who has been employed here for some time as a grocery clerk. He left late Saturday night, but said nothing about where he was going. Investigation shows that his bed had not been occupied. He said nothing to his hotel landlord nor his employers about leaving.

SANTA BARBARA.

CLIFFORD STILL AT LARGE.

(SPECIAL CORRESPONDENCE OF THE TIMES.) SANTA BARBARA, May 4.—Ed. Clifford, the desperate young man who shot Rose Kyle, a woman of the lower world, at her room last Tuesday morning, has not been captured by the police, although they believe they have his whereabouts located within the vicinity of Montecito. He was seen in that locality several times yesterday, and is said to have eaten breakfast in the hotel there. The County Hospital. Policemen scoured the foothills near Montecito for him last night, but he was not discovered.

Rose Kyle, his victim, has developed a serious case of pneumonia, and is not expected to survive. Today is the crisis in her condition, and if she lives through the night, she may recover.

THE OIL INDUSTRY.

ROAD TO MIDWAY NOW ASSURED.

SALE OF VAST HOLDINGS TO SANTA FE CONFIRMED.

Railroad Company Will Pay Thirty Cents Per Barrel for Oil—New Line Will Pierce Proven Territory of Seven Thousand Acres—Mexican Locomotives Burning Oil.

It may now be authoritatively stated that the purchase price of the one-half interest of the Chasler-Camfield Midway holdings by the Santa Fe Railroad Company was \$500,000, and that the contract in connection therewith for the payment of 30 cents a barrel for the oil, the territory is capable of an enormous production, and under the terms of the sale, the Santa Fe will at once begin the development of the property and the extent of that expended by the original owners.

There are several surveys in existence into the Midway territory, but the extended line, which now has its terminus at the north line of section 21-22, is the one which is being developed. It is a line of 24 sections, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

There will be tributary to the extended line nearly 7000 acres of proven land, and that actually has a productive well on each quarter section. It is held that the colossal termination of the deal for the extension of the railroad was due in large part to the exertions of W. B. McIntosh of Chicago, one of the heavy stockholders in the oil corporation, who has been for some time in this city and San Francisco. Some of the local owners and directors are reported to have opposed strongly any action looking toward the encouragement of a railroad extension at this time, urging the prevailing low price of oil as one of the reasons.

REFINERY TO START.

The National Oil Refining and Manufacturing Company has placed the refining touches on its magnificent refinery.

COOKING WITH GAS.

Knowledge of how to use gas is wanted; no, not so much wanted as needed.

As it wasted by not knowing how to manage burners, even for light; still more for cooking. Ask the gas-office.

finery in the Kern River field, and oil will soon be running into the big 50,000-barrel tank that is to supply the refinery. President Calhoun will leave for San Francisco in a day, where he will enter into contracts for the oil to be used.

The company now has contracted for 50,000 tons of asphaltum to be used in connection with the manufacture of paints and roofing, and it may be said that the output of the refinery will be largely along this line of material.

OIL IN MEXICO.

Winfield Scott Watson of Memphis, Tenn., and A. T. Johnston of New York City, both of whom are interested in the development of the oil industry in Mexico, are at Hotel Stanish. Mr. Johnston was a pioneer investor in oil lands in the State of Vera Cruz and Mr. Watson, three years ago, in company with C. A. Young of Berkeleyfield and others, made an inspection of an oil concession of over three million acres, extending over a distance of three hundred miles on the Pacific Ocean, north from the isthmus of Tehuantepec, and from forty from sixty miles or more, and practically established the existence of a great Mexican oil belt on the Gulf coast.

"The Mexican government and President Diaz are offering every possible encouragement to the oil industry," said Mr. Watson yesterday. "There is a duty of \$4.50 on crude and \$15.20 on refined oil when imported. The President has issued a decree that cheap fuel produced at home is absolutely essential to the prosperity of the country and its manufacturing development. There should be a 4000-ton factory for the oil."

A few days ago the first engine on the Mexican Central Railway, the oldest railway in the country, left the depot of that road in the City of Mexico, and this being the first practical test of the engine product on Mexican railways. This engine had been converted into an oil burner at the depot of the Mexican Central Railway, and is now under the same process of conversion. They will be run on the mountain division of the road, and the first will cover several miles. It has been estimated that, if this oil fuel gives satisfactory results, the road will be able to save \$100,000 a year. President E. L. Doheny and Director C. A. Canfield of the Mexican Petroleum Company of this city, that owns the Chasler-Camfield lease of J. V. Jameson, from whom he derives his rights, did enough assessment work for the Mexican Central Railway to make good his claim on section 25. Mr. Midway, the assessment work, he says, consisted of building a system of roads over the section.

CONTESTS FOR TITLE.

ECHO OF MIDWAY FIGHT.

(BY DIRECT WIRE TO THE TIMES.) FRESNO, May 4.—[Exclusive Dispatch.]—The Argentine Oil Company's case in the United States District court will not be completed this week. W. P. Cunningham, who is in reality the Argentine Company, claims that Chasler-Camfield, lessee of J. V. Jameson, from whom he derives his rights, did enough assessment work for the Mexican Central Railway to make good his claim on section 25. Mr. Midway, the assessment work, he says, consisted of building a system of roads over the section.

His position as shown today is that on January 1, 1901, Chasler and Cunningham drove a line of survey over the land located on the night of December 1, 1901. Today, Cunningham, an attorney of this city, told of his experiences as a locator on the north-east quarter of section 25. He went in at midnight with a party of men, and later he was forced out of the section by the Jesse Dover outfit. He said a gun was pointed at him to make him leave his claims of a legal right to remain on the ground. Force was used to get his outfit out of the ground. The plaintiff produced the evidence to show the probability that the Chasler and Canfield men received similar treatment.

NOTED MUSICIANS TO AID.

A concert will be given in All-Saints Hall, Highland Park, on next Thursday night, May 10, to raise funds for the fund of All-Saints Church, which is under the rectorship of Dr. A. G. L. Hunt. Mrs. Harry Foster, late of the Edgell Training College, England, will sing, and Carl Adolph Preyer, pianist, who is a professor in the State University of Kansas, will also take part.

An Alligator Farm.

It is reported that several French dealers have recently visited this country to purchase stock for an alligator farm. The alligator is native to the south of France. Alligator skin has become so highly prized throughout France that the dealers believe it will pay well to raise the alligators on this, the first farm of its kind in the world. Not long ago President Lebedev received a present of a hunting suit of alligator skin. This is said to be growing scarcer yearly, and there is always a great demand for it for boots, shoes, handbags, writing pads, portfolios and toilet articles.—[New York Tribune.]

William M. Clark and Frank Boyen, who were indicted by the United States grand jury for passing counterfeit ten-dollar gold pieces at Great Falls, Mont., pleaded guilty in the Federal court at Helena yesterday. Judge Hunt sentenced them to two years each in the State penitentiary at Deer Lodge and imposed a fine of \$500 each.

CHLORAL STILLS THE TEMPEST.

BRIDE OF THREE DAYS RASH AT LONG BEACH.

Quarrel With Hubby is Followed by the Taking of a Dose, Which Aids She Quickly Repents—Heroic Treatment Required to Save Her. Steamer Fashion Drives Ashore.

LONG BEACH, May 4.—A bride of only three days, Mrs. William Douglas, became piqued at her husband last night, and in her anger and rage swallowed the contents of a bottle of chloral hydrate, and the next moment "regretted it, and had a hurry call sent out for her husband and a physician.

The couple were married at San Pedro Monday night, and came to Long Beach to spend their honeymoon, taking rooms at Second and Pine. Tuesday and yesterday the bride and groom were in the city, and the bride was in the city.

After his departure Mrs. Douglas brooded over her troubles, and then resolved to end them. Among her husband's effects was a bottle of chloral hydrate, which she took, and the result was as follows.

Dr. Jones, who found Mrs. Douglas in a critical condition, immediately resorted to heroic treatment, and the result was as follows.

UNAVOIDABLE, SKIPPER SAYS.

STATEMENT ON THE DROWNING AT REDONDO.

Master of Steamer Northland Declares that the Sea Was Not so Dangerous and that the Men Were Not Careful Enough—Thinks He Should Not be Blamed.

SAN PEDRO, May 4.—The steamer Northland arrived here this morning from Redondo, after having lost Hjalmar Rouse and Ned Lindo, two of the crew, in the drenching rain before her departure.

It was reported that considerable blame attached to the captain of the steamer for sending a boat out to the men in the storm.

The skipper, however, in a statement made this morning, declared that the men were not careful enough, and that he should not be blamed.

The skipper, however, in a statement made this morning, declared that the men were not careful enough, and that he should not be blamed.
